

EVPORT Privacy Policy

Website

EVPORT Limited (EVPORT) does not collect any personal information from your browser while you are browsing the website, but may collect usage data via the use of cookies and analytics services. This will not result in personally identifiable information about you being collected.

EVPORT Payment Platform Users

The current terms for the use of the EVPORT Payment Platform via a Login may be found [here](#).

EVPORT collects and holds personal information connected with use of the EVPORT Payment Platform via Tokens.

All information held by EVPORT may be used for:

all aspects of the technical operation, maintenance, administration, development and support of the EVPORT Payment Platform;

collecting any amounts owing by Users for use of the EVPORT Payment Platform;

marketing, improving and planning EVPORT's current and future offerings to Users and other parties involved in the supply of electric vehicle charging infrastructure;

where relevant to the purposes the above, sharing it with other parties involved in the supply of electric vehicle charging infrastructure.

You may request a copy of the personal information held about you that EVPORT holds, for the purposes of inspection and correction. Please use the [contact form](#) to do so.
